Subject: Chat Transcript, Wed 12-8-2010
From: Tim Ellis <dynamic@nocturnalcommissions.com>
Date: 12/8/10, 8:33 PM
To: Barrett Brown <barriticus@gmail.com>

[INFO]	Channel view for “#projectpm” opened.	
	-->|	YOU (DynamicUno) have joined #projectpm
	=-=	Topic for #projectpm is “ProjectPM - now on IRC!”
	=-=	Topic for #projectpm was set by ohthehugemanatee on Monday, October 04, 2010 10:40:05 AM
	<BarrettBrown>	Also, Nick, can you make sure that a transcript of what he's missed
	<BarrettBrown>	oh, nevermind, Tim's here
	<DynamicUno>	Evening
	<BarrettBrown>	Tim, meet Gregg Housh and Kenneth Lipp
	<Emma>	and me
	<DynamicUno>	Hello Gregg and Kenneth
	<DynamicUno>	And Emma
	<Emma>	hello
	<kenkogni>	hello
	<projectpmbot>	hola
	<BarrettBrown>	link regarding former: http://www.dailykos.com/story/2010/12/8/927135/-Anonymous-launches-new-Wikileaks-defense-effort
	<Xphox>	Hey Tim!
	<DynamicUno>	Ahh excellent
	<DynamicUno>	Hey Nick!
	<BarrettBrown>	link regarding latter: http://cultureisaweapon.blogspot.com/2010/12/this-post-is-dedicated-to-friend-who.html
	<c0sfreenode>	Hello Tim
	<BarrettBrown>	Nick can hopefully provide you with a transcript thus far but we really only went over general stuff anyway
	<DynamicUno>	Alright sounds good
	<BarrettBrown>	Okay, Dr. Lipp, would you like to introduce yourself?
	<Xphox>	Tim I've emailed you the transcript to NC address.
	<Emma>	KENNETH
	<DynamicUno>	Thanks Nick
	<kenkogni>	ywa
	<kenkogni>	Hi, my name is Kenneth, that or Ken will do. Unless dissenting, then Sir Dr. Ken.
	<Emma>	not a Sir yet Sir Ken
	<BarrettBrown>	Thanks. Tell everyone your general background and then a summary of First Praxis.
	<Emma>	in your own time
	<scottNY>	and no fancy speak please :)
	<BarrettBrown>	you have five seconds
	<kenkogni>	I'm an ethologist at Darwin College, studying behavioural correlates in prosian genetics
	<Emma>	yay!
	<BarrettBrown>	That was close, almost had to shoot the first hostage
	<Emma>	lol
	<kenkogni>	I've forgotten english for a moment
	<BarrettBrown>	Now, First Praxis summary, please. They also have a link to your announcement.
	<Emma>	what does prosian mean Dr Kenneth?
	<BarrettBrown>	prosimian
	<kenkogni>	It means shut up\
	<BarrettBrown>	or that
	<kenkogni>	Thank you , Barrett.
	<Emma>	how rude
	<Emma>	I shall google then
	<scottNY>	kenkogni: thanks for using simple words :)
	<lfzr>	hey all
	<kenkogni>	No problem, much time everyday with tarsiers
	* lfzr	tips hat
	<Emma>	hello
	<DynamicUno>	Hey Sundeep, Sir Dr. Ken was just introducing himself and First Praxis
	<scottNY>	Emma: can you let me know what ethologist and prosian are?

<Emma> are you 13 yet?
<lfzr> almost
<lfzr> 2 more days
<BarrettBrown> Everyone, lfzr is Sundeep, a brilliant young programmer
<BarrettBrown> ... who is heavily involved in creating our software
<Emma> yes I am writing a paper on it and will present it at the next meeting
<scottNY> Emma: please include tarsiers
<kenkogni> Hello.
<projectpmbot> what's up
<Emma> I intend to
<kenkogni> She will
<BarrettBrown> Sundeep, this Dr. Kenneth Lipp, whose African health development project will be powered to some degree by the software you're building
<lfzr> not brilliant, but the rest is accurate ;) lol
<lfzr> hello Kenneth
<scottNY> concur with programmer and young ;)
<lfzr> nice to meet you :)
<scottNY> jk
<kenkogni> Tarsiers are haplorrhini primates.
<Emma> oh you
<BarrettBrown> Like all programmers, Sundeep is of Indian descent and 11 years old.
<lfzr> 9 to be accurate
<Emma> lol
<kenkogni> Knew that
<BarrettBrown> When he turns 15 he'll be shuttled off to medical school in an ancient Hindu ceremony
<Emma> shuttled
<scottNY> ahh, well kenkogni, haplorrhini, that explains it
<BarrettBrown> Seriously, though, let's hear about First Praxis
<scottNY> firefox doesn't even recognize it as a word
<lfzr> hahaha
<lfzr> med school sounds boring
<lfzr> anyway lets get on to the good stuff
<Emma> teh girls
<lfzr> ofc
<scottNY> teh?
<lfzr> canuck speak
<kenkogni> it's like a squirrel. k?
<scottNY> ok squirrels i know
<kenkogni> monkey squirrel
<scottNY> another time then
<scottNY> kenkogni: I think BarrettBrown wants you to talk about First Praxis.
<kenkogni> I have a blog on it. Very confused
<BarrettBrown> Just give us a quick summary
<Emma> PLEASE
<Emma> NOW
<BarrettBrown> They'll see the blog, but can you tell us a bit about what it is and how you'll be going about it so that we can better decide how to assist you?
<kenkogni> Praxis is an effort to use global networking to increase international health outcomes
<kenkogni> "praxis" is jp sartres fave term
<Emma> so read the blog :)
<kenkogni> it means the comprehensive state of things, bound by our objectification of the subjective. Praxis has as it's goa
<kenkogni> hush, you're throwing me off
<scottNY> sounds specific ;)
<c0sfreenode> I do believe a big LET THE MAN SPEAK is in order here.
<scottNY> touchr
<scottNY> touche
<kenkogni> Yes, and some physical assistanc
<scottNY> kindly continue
<Emma> or unkindly
<kenkogni> We connect researchers/clinicians/social activists in strategic locations, focused on Latin America, Africa, and Southeast Asia\

<kenkogni>	scott, Latin America isn like regular but without haplorrhini
<BarrettBrown>	I'm sorry, have a phone call I absolutely have to take, please continue without me for about ten minutes
<DynamicUno>	Carry on Ken, and let us know when you'd like to yield the floor to comments please.
<c0sfreenode>	kenkogni: so whats the big goal, what do you tell a reporter looking for a quote/snippit that really explains this to lay people?
<scottNY>	kenkogni: Clark and I have emailed with the owner of a website which at quick glance looks more domestic than International but her goals is to be a broker amongst nonprofit organizations highlighting them on an individual basis with the hope of connecting interested persons/organizations.
<scottNY>	http://nonprofitawareness.blogspot.com/
<scottNY>	You should check it out.
<c0sfreenode>	I have a domain that I was going to do something similar with, I have just been to busy
<kenkogni>	@cosfreenode: The neolithic demoralisation still rampant in the developing world is not a geographically bound pestilence. Lack of education at the local level (on up) regarding issues like basic perinatal care , AIDs, etc. is the factor preventing most regions from expanding their potential beyond the post-colonial static turmoil
<kenkogni>	sorry, had to go push a cat off the window ledge
<kenkogni>	I think it was really a squirrel, though
<c0sfreenode>	kenkogni: thats perfect
<scottNY>	haplorrhini?
<scottNY>	kenkogni: I believe you became aware of it through Emma but I have an indirect connection with the owners/operators of lifeformothers.org
<kenkogni>	haplorrhini is the linnaean and cladistic designation for T. tarsius, as well as 9 other subspecific, bug-eyed, leapin little squirrel monkeys
<scottNY>	above my pay grade
<scottNY>	no more squirrel jokes for me
<DynamicUno>	lol
<kenkogni>	Below my gay parade
<scottNY>	punny
<kenkogni>	(confess: read yours as "gay parade" 1st)
<scottNY>	Freudian eyes I guess
<DynamicUno>	Ken - obviously digital infrastructure is a problem in places where First Praxis is likely to be operating. How do you envision translating to a real-world implementation?
<kenkogni>	I'd love to connect further with lifeformother
<scottNY>	Okay we can exchange further via email.
<scottNY>	I'd like to have a better understanding before I reach out
<kenkogni>	@scott: thx, Emma will probably want to be cc'd. anyone who wants more info or to berate me on related/unrelated matters, feel free
<kenkogni>	I will prepare a more specific operative explanation
<kenkogni>	@Dynamic: Do you mean like on the tribe-village level?
<c0sfreenode>	Just to toss it out there for thoughts, I own 0v.org, nice short domain (zero v) One of the few 2 character domains. I was going to put up a site named Zero Visibility. With the goal of highlighting non-profits that werent getting enough attention, a new group of 6 each month
<DynamicUno>	Generally yes; information-transmission is the critical component, but without the digital tools we take for granted, information transmission is no mean feat
<c0sfreenode>	I just dont have the time lately to even think about it.
<kenkogni>	I already know that I don't know the answer.
<DynamicUno>	That's fair
<scottNY>	lol @ kenkogni
<scottNY>	DynamicUno: Great question though! :)
<kenkogni>	@cosfreenode-willchk
<kenkogni>	Dynamo
<c0sfreenode>	the site isnt up.
<kenkogni>	I will be in Malawi in February in Lilongwe and venturing to villages along the lake and into the bush
<c0sfreenode>	ill put the basic demo back up shortly.
<Emma>	perhaps we could do csomething with the Ov.org domain ? and yes please CC me in ScottNY
<c0sfreenode>	just a thought
<c0sfreenode>	its a neat domain and I have it and as of yet am not using it for my idea
<Emma>	its a very neat domain
<kenkogni>	@DynamicUno: I hope to find atmanageable spoke points for prepaid wireless
<DynamicUno>	Hmm that's a thought
<kenkogni>	Or rhinos
<kenkogni>	I want a rhino
<DynamicUno>	Well if you're collecting them please bring one back for me
<DynamicUno>	I'd like to see customs try to put that through an x-ray scanner

<Emma> lol
<kenkogni> How silly! How would I ever get TWO rhinos thru customs?
<kenkogni> @Emma: not a word
<Emma> Emma is my name
<kenkogni> It's a very neat domain
<BarrettBrown> okay, I'm back, will review what I missed right quick
<Emma> what can we do with it?
<Emma> too good an opportunity to miss I feel
<DynamicUno> Tangent - Sundeep and Nick, can you two link up (via email or another time on IRC) with Campbell to go over the hosting solutions?
<DynamicUno> Nick I know you have to depart shortly
<DynamicUno> so I'd like to resolve that briefly before we go on
<scottNY> In the interest of a resemblance of structure, I think it would be helpful for all participants if kenkogni wrote up as c0sfreenode put it, a snippet/blurb that explains First Praxis (hopefully as dumb downed for me as possible).
<scottNY> This will allow everyone to come to a conclusion as to the best fit.
<scottNY> Thanks DynamicUno for staying on top of things! You da' man!
<c0sfreenode> yes, light on the 4 syllable words
<DynamicUno> @ScottNY hehe yeah I'm getting the hang of this "organized" thing
<scottNY> It goes without saying that there clearly is a fit btwn PPM and First Praxis.
<Xphox> I am available most days M-F after 7PM EST for chatting, or we can exchange emails 24/7.
<scottNY> BarrettBrown: Have you heard word from any of the programmers you sent the programmer questionnaire to?
<DynamicUno> Scott, we have received one response
<BarrettBrown> Those responses go to Tim
<DynamicUno> Joe Neal
<BarrettBrown> He's received at least one, I know
<BarrettBrown> There you go
<DynamicUno> It was EXTREMELY detailed
<scottNY> DynamicUno, Xphox, lfzr since Campbell's schedule is erratic, it may make sense to pick a set time to talk, IMHO.
<scottNY> lol
<BarrettBrown> If we need more, I can get more this week
<DynamicUno> He filled out the chart, then wrote a resume lol
<BarrettBrown> lol
<c0sfreenode> BarrettBrown: you know the site curated.by, relatively new site thats got a lot of press attention?
<Emma> this is funny why?
<scottNY> Got to appreciate the attention to detail ;)
<DynamicUno> ScottNY, that's a good idea - Nick, I'm not sure if Sundeep is watching closely right now but I will have him email you
<DynamicUno> Emma - it's not funny, we were laughing at you
<Emma> lol#
<BarrettBrown> yesterday a Phd candidate from Berkley, physicist, tried to send me his resume and offered to get a letter from his doctoral advisor or whatever
<scottNY> lfzr: you around?
<BarrettBrown> I didn't have the heart to tell him I didn't really graduate high school
<lfzr> hey yea doing a bit of multitasking here
<lfzr> lemme read a bit
<scottNY> BarrettBrown: Do you know offhand who/how many people you sent the programmer email to?
<BarrettBrown> It was about six or seven, I think, let me look
<scottNY> lfzr: DynamicUno is going to try to setup a meeting with you guys and Campbell and Xphox (Nick)
<kenkogni> Should I do something to help support the conversation? Punctuate, or something?
<lfzr> yea sounds good
<kenkogni> I'll be subtext:)
<scottNY> BarrettBrown: Would you be opposed to either DynamicUno or I, following-up with those individuals next week simply asking if they've received your email?
<BarrettBrown> it was 11
<BarrettBrown> 11 programmers
<scottNY> oh wow!
<BarrettBrown> not at all, Scott
<Emma> I would
<BarrettBrown> if you're "wowing" the number, remember that not all of these will follow through
<scottNY> Ok, BarrettBrown, if you can email at least one of us the list of people that would help our efforts.
<Emma> I am opposed
<BarrettBrown> but getting more programmers who are dedicated is no problem

<BarrettBrown> okay, I'll forward it to you now, Scott
<redproph1t> I'm sorry to interrupt
<lfzr> we can probably get started on the development side once we get a nice roster finished
<redproph1t> but I haven't had the chance to fill that out
<scottNY> BarrettBrown: I understand, hopefully we won't have to dig into the well, but we never know.
<DynamicUno> Hello Gus, welcome. No problem, we expected a certain amount of delay
<redproph1t> I've been reading while doing work
<scottNY> redproph1t: do you have a copy of the most recent survey/questionnaire?
<redproph1t> I think I filled something out similar ages ago
<DynamicUno> Yes, back when we were in the yes/no format
<Xphox> DynamicUno: As a side thought, if multiple people are willing to host for you, you could technically setup a round-robbin DNS to bounce the load between multiple hosting providers. (Remind me of that when we meet) :P
<BarrettBrown> also, can someone please send me transcript of this entire meeting when we're done so I can forward to Barry Eisler, Robert Green, and my other people?
<DynamicUno> Ok thanks Nick
<BarrettBrown> I don't know how to do it with this wacky IRC client
<scottNY> redproph1t: we've updated the survey to include level of expertise, as this will help us greatly rather than a simply yes/no response
<kenkogni> @all:
<scottNY> Xphox: I like where you're going with this!
<scottNY> BarrettBrown: Has Campbell give you singingsite access?
<kenkogni> lovely to meet, will send that snippet this evening before bed
<redproph1t> honestly, a good programmer will be able to pick up whatever is used
<c0sfreenode> Emma: since you seemed interested 0v.org is up
<scottNY> thanks kenkogni!
<Emma> thank you I am
<c0sfreenode> Emma: http://0v.org/
<c0sfreenode> that was the idea
<DynamicUno> Thanks Ken, have a good night
<scottNY> redproph1t: I'm not knowledgeable enough about programming to comment, but I imagine some people may be more experts in certain fields than others, but WTFDIK.
<scottNY> goodnight kenkogni
<Emma> c0sfreenode I love it
<BarrettBrown> Ken, you out?
<BarrettBrown> Let's try to chat tomorrow
<kenkogni> goodnight, i apologise for my poor mobility in this medium
<kenkogni> @BarrettBrown: no, but now reading
<BarrettBrown> Takes getting used to, you did fine
<kenkogni> Take it away, will plat ctxt clues game
<BarrettBrown> One, two, three, four, I declare a cyberwar
<c0sfreenode> Emma: that was the idea. just no time to actually get it going, so much other stuff keeps coming up
<scottNY> sneak attack
<c0sfreenode> I have a friend whose brother is actually on the security team at paypal
<scottNY> ok so we got kenkogni providing a snippet soon, Tim is going to setup meeting about hosting, Tim and I will follow-up with programmers
<c0sfreenode> he got word to me that they brought in 2 different outside security companies today
<Emma> I love the idea of highlighting lesser known non profits
<c0sfreenode> to help beef things up
<DynamicUno> Alright, Nick Xphox, you can go ahead and eat now that your shift is done, Sundeep lfzr I am sending out an email now between you two to organize a meeting, preferably with Campbell as well
<c0sfreenode> Emma: but if we could use the domain for something related to this project I would be up for that
<Emma> ha this cyber attacking is just fantatsic
<lfzr> sounds good DynamicUno :)
<c0sfreenode> as I think it might be about another year before I could really focus on something like that project idea thats up right now
<scottNY> ok not to digress, but BarrettBrown do you want to talk about the probationary period, or wait for Campbell's input as well?
<BarrettBrown> Oh, yeah, lets
<BarrettBrown> Tell me a bit about the purpose again, just so everyone will know
<scottNY> lfzr: Are you here for feedback as well?
<scottNY> The goal is to enact another tool to ensure quality
<Emma> cOsfreenode my email emilieduchatelet8@gmail.com - I would like to do something with it
<lfzr> don't want to spam but this is from campbell's reply

<lfzr>	Sundeep and I had discussed a probationary period, wherein your inviting blogger's reputation score would reflect the quality of the invitee's posts. We considered this to be a very powerful way to ensure that quality begets quality. People on probation don't necessarily see any disadvantage in this situation, so I don't understand how this could be a disincentive to join.
<scottNY>	The means is to have individuals invited to PPM to be endorsed by their invitor for a period of time such that the person doing the inviting is affected by the works of the invited person.
<lfzr>	yea so the invitor is responsible for who they invite
<scottNY>	lol @ lfzr copying and pasting
<BarrettBrown>	okay, put that way, this sounds a lot better than it did originally
<BarrettBrown>	Go ahead and keep it in, then
<scottNY>	BarrettBrown: the person is relived from this probationary period once they've achieved certain quality metrics i.e. well received
<BarrettBrown>	Okay
<scottNY>	ok
<DynamicUno>	That sounds reasonable
<BarrettBrown>	If you and Campbell and everyone will be meeting, let me know so I can join if I have time
<DynamicUno>	The metrics will be fairly arbitrary, no way around that
<DynamicUno>	but thta's ok
<lfzr>	true
* Xphox	waves - Tim I'll be waiting for your email, or call/txt/PR me if a rush.
<BarrettBrown>	Thanks for joining us, Nick
<BarrettBrown>	And for all your help
<Xphox>	No problem BarrettBrown
<DynamicUno>	Sounds good Nick, thanks, I'm sending the email out now
|<--	Xphox has left chat.freenode.net (Quit: Page closed)
<scottNY>	DynamicUno: We're trying to come up with an array of metrics, we figure let's collect as much info as possible and adjust accordingly.
<DynamicUno>	That sounds good. We can adjust on the fly I'm sure
<c0sfreenode>	Do you have a list of any example metrics?
<c0sfreenode>	word count? total views? unique views? rating with a star system?
<DynamicUno>	Alright, Sundeep I am sending out an email to you, Nick, and Campbell re: hosting, you can just hit reply all to carry on the conversation
<DynamicUno>	Number of pushes I imagine
<scottNY>	c0sfreenode: we've decided not to include views
<c0sfreenode>	just thinking from a security/gaming standpoint
<lfzr>	# of pushes to number of submitted articles
<scottNY>	DynamicUno: correct, but number of pushes as it relates to number of posts
<scottNY>	plus time weighted
<lfzr>	yes
<c0sfreenode>	always have to make sure that the metrics for that arent "game-able"
<DynamicUno>	Right
<BarrettBrown>	Gregg, also, DynamicUno = Tim Ellis, who as I mentioned is taking over Sean's work
<c0sfreenode>	ahh
<scottNY>	c0sfreenode: feedback on current metrics would be appreciated. Although we try to think of these things, I can't speak for anyone else but this is my first time concocting such a system.
<scottNY>	another metric is penetration (hold your laughs
<lfzr>	im not so sure that the probation period is effective at stopping spam
<scottNY>	which measures how deep a single post goes in terms of levels
<c0sfreenode>	we tried to come up with some stuff in the past with other anon projects, nothing that ever ended up live, but I remember the lengthy discussions we had
<lfzr>	ex. blogger A invites spammer B
<lfzr>	spammer B gets out of the probationary period
<lfzr>	by submitting good posts bla bla
<scottNY>	lfzr: there certainly will be a biases associated with it, but I still feel it's a smart idea to prevent consequences of poor decision making
<lfzr>	so then spammer B invites his friend spammer C
<scottNY>	lfzr: no arguments here
<scottNY>	it's one of many tools
<lfzr>	spammer C can now spam all they want, as spammer B doesn't really care about endorsing spammer C's posts
<lfzr>	hmm
<lfzr>	ok
<BarrettBrown>	Oh, Gregg, let me give you links regarding the schematic in general
<BarrettBrown>	http://ordinary-gentlemen.com/blog/2010/12/02/the-project-pm-schematic/
<c0sfreenode>	yeah
<BarrettBrown>	That link should do it, actually

<lfzr>	there has to definetly be some manual checking of accounts
<lfzr>	i guess thats up to the admins/mods
<c0sfreenode>	ok
<scottNY>	lfzr: BarrettBrown something that I don't remember if we did/didn't discuss is controlling one's ability to invite people based on quality metrics
<BarrettBrown>	includes link to our new wiki, which currently has a written account of the schematic
<c0sfreenode>	ill catch up on that
<BarrettBrown>	Scott - that's something we need to talk about soon
<scottNY>	lfzr: we're going to utilize a moderation system similar to karma that Campbell has referred to in the past
<lfzr>	BarrettBrown, want to point the domain to the wiki for now and we can point it to the actual site later?
<DynamicUno>	Barrett, I'm afraid that link is broken
<lfzr>	lfzr: yea reddit's system is quite intuitive
<scottNY>	BarrettBrown: DynamicUno is setting up a meeting with you guys and Sundeep, Campbell and Nick to discuss hosting solutions. Do you want to add to that meeting or create a new one?
<lfzr>	*i mean scottNY
<lfzr>	i highlighted myself lol
<scottNY>	I imagine a new, different meeting may be preferable.
<c0sfreenode>	yeah BarrettBrown, 404
<DynamicUno>	I think you're right scott, a second meeting will be bettetr
<BarrettBrown>	try it again, The League is undergoing renovations
<BarrettBrown>	this happened with other posts earlioer
<c0sfreenode>	same
<scottNY>	DynamicUno: have you already sent out that email?
<BarrettBrown>	okay, one sec
<BarrettBrown>	link to video presentation I made the other day
<BarrettBrown>	http://www.youtube.com/watch?v=6wl88VHg_UA&feature=player_embedded
<DynamicUno>	Not yet, I can still modify ti
<BarrettBrown>	link to written version
<Emma>	try the link - I think its working now
<BarrettBrown>	http://projectpm.thepdl.co.cc/index.php/Main_Page
<BarrettBrown>	yeah, ordinary gentlemen link should be back up
<lfzr>	scottNY: i think invites should be limited and be handed out manually at start, we can setup and tweak automated systems as needed later on
<lfzr>	what do you think?
<scottNY>	lfzr: I think that's a good idea, but we should try to think of some sort of system to start with, rather than introducing later on.
<lfzr>	true
<scottNY>	We simply can ignore the system in the beginning if we don't like it which will allow us to properly tweak it.
<BarrettBrown>	yeah, none of this is set in stone even after networks go live
<scottNY>	DynamicUno: You think you can include the second meeting (it may make sense to ask people for four times that they're available)
<DynamicUno>	I can do that - just so I'm clear, I'm asking for a second meeting (or really a first one, since the hosting I feel can be handled via email alone) regarding the initial probationary period
<DynamicUno>	and moderation/karma system
<DynamicUno>	Yes?
<lfzr>	in terms of the gathering of stats, we'll probably need a whole meeting to discuss what kinds of things should be recorded, privacy concerns etc.
<lfzr>	yes
<DynamicUno>	Ok
<lfzr>	can you add stats to that?
<scottNY>	DynamicUno: If the hosting problem can be solved through email, then yes meeting not necessary.
<Emma>	I think I need to be flown out to the States
<DynamicUno>	ScottNY - I think I may simply send out two emails so that the two topics dont' get conjoined in the hosting email chain
<scottNY>	DynamicUno: as you and lfzr said we need a meeting to primarily discuss privacy and how inviting is going to work.
<lfzr>	yea hosting should probably be separate
<scottNY>	DynamicUno: I think we've sorted out the probationary period issue.
<DynamicUno>	Ok
<lfzr>	i doubt any of you want to be bored with that stuff
<BarrettBrown>	anyone here in New York and want to go to John Penley's house party on the 18th?
<DynamicUno>	Privacy and invitation, and statistics
<scottNY>	DynamicUno: Two emails are fine.
<BarrettBrown>	He invited me but I'm in Dallas now
<scottNY>	lfzr: We'll it would be super cool if we could do load balancing ;)

<DynamicUno> Barrett, I'm throwing a party on December 18th in Toronto
<DynamicUno> Busy day it seems
<scottNY> John would be?
<lfzr> scottNY, im not sure if we'll need any of that for some time, but yes that would be slick :)
<BarrettBrown> God, I'd love to go to one of your parties
<BarrettBrown> John Penley is a longtime activist of the old-school sort who introduced me to Patty Smith and Bob Geldof a while back
<BarrettBrown> Interested in PM but I don't want him associated with it
<DynamicUno> I'll leave hosting for Nick, Sundeep, Campbell and myself as moderator, and include Sundeep, Campbell, Barrett, and Scott with the meeting re: invites etc
<scottNY> Sounds good :)
<DynamicUno> Barrett, you'll catch one of our shows I'm sure
<DynamicUno> I'm in periodic talks with a Texas based group, I may play down there sometime
<lfzr> sounds good Tim :)
<Emma> lets all go
<scottNY> This is a Google image that came up when i Googled John Penley: http://www.google.com/imgres?imgurl=http://2.bp.blogspot.com/_10t1glapeaw/SX2Y4stkTjI/AAAAAAAAHi0/-JzDEuHNWO0/s400/L1000387.jpg&imgrefurl=http://neithermorenorless.blogspot.com/2009/01/birthday-number-76-for-ray-big-party.html&h=291&w=400&sz=32&tbnid=T-nqYsLzh5Lh6M:&tbnh=90&tbnw=124&prev=/images%3Fq%3DJohn%2BPenley&zoom=1&q=John+Penle
<scottNY> y&usg=__uyLeHj1HdcfEBJLLxfbseUeX7Cc=&sa=X&ei=PS8ATeK1OMSp8AaV0KTNBw&ved=0CDEQ9QEwBA

<scottNY> damnnit
<scottNY> http://tinyurl.com/28tmwyd
<lfzr> lmao
<DynamicUno> lol
<scottNY> The blog is from NYC
<BarrettBrown> Penley is somewhat above Neil on the douche-o-meter
<BarrettBrown> Neal?
<projectpmbot> Neal is the guy who gets all the chicks
<DynamicUno> lol
<BarrettBrown> Love that fucking robot
<scottNY> When I first started using IRC, I thought projectpmbot was Neal
<scottNY> I was wrong.
<BarrettBrown> ProjectPMbot: Gregg is a level seven operating Thetan.
<projectpmbot> BarrettBrown: Okay.
<BarrettBrown> Gregg?
<projectpmbot> Gregg is a level seven operating Thetan.
<Emma> #
<BarrettBrown> Can't wait till he sees that
<DynamicUno> lolol fantastic
<BarrettBrown> For those who don't know, Gregg faced criminal charges by the Church of Scientology which were eventually resolved
<c0sfreenode> nice
<BarrettBrown> damn, didn't know you were paying attention
<BarrettBrown> Gregg?
<projectpmbot> Gregg is a level seven operating Thetan.
<BarrettBrown> Gregg?
<c0sfreenode> I spent 7 months in court against them
<projectpmbot> Gregg is a level seven operating Thetan.
<BarrettBrown> Gregg?
<projectpmbot> Gregg is a level seven operating Thetan.
<BarrettBrown> lolololol
<BarrettBrown> jajajajajajaja
<c0sfreenode> other people got scared and made deals
<c0sfreenode> i ran it out until they realized it wasnt happening
<BarrettBrown> well done
<c0sfreenode> thank you
<scottNY> BarrettBrown: PPM have any really good tax guys?
* c0sfreenode is not a good tax guy

<BarrettBrown> Also, Gregg, we obviously have a lot of other materials and I'll share those with you soon but will wait for your current round of media hassling to end

<BarrettBrown> Scott: Let me think

<c0sfreenode> yeah, the next few days are already filled up

<BarrettBrown> If not, I can get a good tax guy

<BarrettBrown> You got CNN tomorrow, Gregg?

<BarrettBrown> Oh, hey, can someone go ahead and send me the transcript of this meeting thus far?

<BarrettBrown> Gregg, just so you know, these meetings are not public and are only seen by a few other people like Barry Eisler and Robert Green
